

CCCRA Press Release – 3/16/2023

CCCRA, MountainTrue and Dickinson College students clean up streambank.

Volunteers from [Clay County Communities Revitalization](#) (CCCRA) and [MountainTrue](#), along with students from Dickinson College in Carlisle PA spent a productive day cleaning the stream bank on Business 64 in Hayesville. The group removed invasive plants along the stream from below Moore’s Plaza and Hayesville Middle School.

MountainTrue and CCCRA have partners for several years to provide volunteer labor for stream bank repair and invasive plant removal, as well as planting native plants to enhance and preserve our local environment.

The students from Dickinson College use their college spring break to do good things. In this case, they spent a hard six hours working alongside the local volunteers. Many thanks to MountainTrue, the students and faculty from Dickinson College and CCCRA volunteers. Partnerships work.

Caption: The crew from Dickinson College in Carlisle PA with Tony Ward of MountainTrue and CCCRA volunteers David Smart, Joe Burns and Rob Tiger, are shown after cleaning the stream bank on Business 64. Not shown: CCCRA President Curt Wheeler and Jim Tiger.
