

CCCRA Press Release

February 2018

Courthouse Operations Committee Formed

The Courthouse Operations Committee has been hard at work on the development of policies and procedures for the Courthouse and Event Center once it is open to the public. We are establishing marketing and use plans, budgets, legal contracts, pricing schedules and advertising media to promote and fulfill the operation of the building as a self-supporting first-class venue and community destination. We will affect placement of the property manager, determine equipment needs and establish various revenue streams that will contribute to the success of the venue. The committee meets weekly in order to accomplish our goals prior to the opening of the courthouse in the third quarter of 2018.
